Swab First reference: ExampleReport

Customer email: joe.bloggs@email.com.au

Results

Substance	Result
Nicotine	Red
Methamphetamine	Red
Amphetamine	Green
Heroin	Green
Cocaine	Green
Cannabis	Green
Ecstasy	Green

Results Interpretation

Green Result	A substance that shows a green result means the substance was not detected by the Swab First National laboratory. This indicates the substance is not present, or it is present below background screening levels on the surfaces sampled.
Red Result	A substance that shows a red result means the substance was detected by the Swab First National laboratory and is present on the surfaces you sampled above background screening levels.
